- I am a teacher in Britain. I want to know, do you store the images taken by the web cams? If you do, is it possible for you to send me an image of the panorama in summer and winter for me to use in my school? (Ian)

- A fantastic site. Have enjoyed viewing nearly everyday throughout the season. (Peter)
- Thanks for your commentary over the season, it is always nice to be able to logon and hope that you have posted a snow report. I guess for the majority of us holiday skiers who will never get the chance to live the alpine winters we crave information about the mountains and conditions so that our 1 week of freedom feels somehow special. Thanks for making it real!!!!!! (Adrian)
- Thanks for coming back so quickly. I love the site by the way, it's by far the best source of info I've found. I recommend it to guests who rent my apartment; it stops them from constantly emailing me asking about the weather and what to do if there's no snow! (Rebecca)

- Just a note of congratulations, I look at the website regularly to see what I am missing before my holiday!! I think the changes you have made to the front page are excellent, it is always interesting and up to date, very impressive, please keep it up. I keep looking at the panoramic camera to see when it snows to decide on a last minute trip next week before Christmas. At the moment it looks like you ought to put some spray-on snow on the camera lens to encourage people! Many thanks for your efforts (Dr P W, Andover, Hampshire)

- Just a quick note of thanks for your excellent snow reports. We were at Meribel at New Year, and are coming back again on Sunday for another week. I have found your reports an invaluable source of information which provide information people actually want (rather than just the usual standard snow depths and temperature that other websites pass off as a snow report). Many thanks and keep it up! (Lee)
- Enjoy your snow reports - always informative. (Barry)
- I have just come across the site and had to say how good it is. The best I have found recently. We have been to this area for 3 years now and will be there in February. - Great WEB site! (John M)
- Great site! Thanks for all your hard work. Only problem is that I can't stay away from the site and it's still 2 weeks till I arrive in Meribel. Must try and get some work done now in between checking on your weather reports and webcams. (David)
- Many, many thanks for this. I've been a fan of the Merinet site since 1997; I really appreciate the honest appraisals of the snow conditions and weather compared to the ever optimistic opinions given by oither [sic] commentators. I know Meribel fairly well so the webcams are also a great to look at. (Mick)
- Really great site. Makes the Alps seem a little bit closer. (Dave)
- I think your site is fantastic, full of very useful information to aid someone either visiting or contemplating a visit to meribel. If only other resorts could emulate this! Well Done & can't think of anything you could add to improve it! (Resonance)
